

BRIGG Wandleuchten

Wall Lamps

Technisch ausgereift und stetig weiterentwickelt, in klassisch zeitloser Formensprache, ist diese mehrfach design-prämierte Wandleuchten-Serie in ihrem Erscheinungsbild auf das Wesentliche reduziert und integriert sich in ihrer Schlichtheit zwanglos in die Architektur.

Verfügbar in acht verschiedenen Dimensionen, sowohl als LED-, Halogen- und HIT-Ausführung, ist BRIGG, je nach Projektsituation und gewünschter Lichtstimmung, das meist geeignete Produkt.

Die Reflektoren der Halogen- und HIT-Versionen sind licht-technisch hoch entwickelt und in verschiedenen Abstrahlcharakteristiken – von asymmetrisch weit in den Raum leuchtend, bis v-förmig abstrahlend – verfügbar (siehe Diagramme).

Die LED Varianten befinden sich auf dem neuesten Stand der Technik, sowohl in der Lichtausbeute, wie auch in der Effizienz.

In a timeless classic design, this multi-award-winning line has a clean, minimalist appearance creating a sense of simplicity that blends beautifully with the surrounding architecture.

BRIGG wall lamps are available in eight different dimensions and as LED-, Halogen- or HIT/Metal Halide version.
